

## **2017 ULI Fall Meeting WLI Langan Scholarship Program**

ULI Philadelphia is committed to the success of the four primary objectives established by the ULI Women's Leadership Initiative ("WLI"):

- Promote the advancement of women, throughout their careers, as leaders in the real estate industry
- Increase the number of women who serve in leadership positions in the real estate industry and in ULI
- Increase the visibility of women leaders in the real estate industry and in ULI
- Increase the number of women who are active ULI Full Members, and support the development of young women members as leaders in ULI and in their professions

ULI Philadelphia District will award one woman member with a scholarship to the Fall Meeting to complement the scholarships offered by WLI at the national level and further the success of the program that has been offered since 2012. The WLI Langan Scholarship Program is designed to raise the visibility and number of women leaders in ULI and the real estate industry, and promote the participation of women at the 2017 Fall Meeting.

The successful recipient of the ULI Philadelphia Scholarship Program will be selected based on the member's ability to articulate how her involvement with ULI Philadelphia and her attendance at the Fall Meeting will advance her professional interests and pursuits, and her likely future involvement with ULI, nationally or at the District Council level.

Scholarships will be awarded to applicants who have a minimum of five years of experience in the real estate or land use industries and have shown leadership roles within ULI Philadelphia or on a national level. ULI Philadelphia intends to award scholarships to ULI Philadelphia members with the objective of promoting leadership among women who may not otherwise be able to attend the 2017 Fall Meeting.

The ULI Philadelphia Scholarship will provide reimbursement for the cost of registration to the ULI 2017 Fall Meeting. Each scholarship recipient will attend all WLI-branded events at the ULI 2017 Fall Meeting, and after the Fall Meeting will prepare a summary of her key takeaways from the Fall Meeting, to be posted on the ULI Philadelphia website.

Nationally introduced in 2012, the Women's Leadership Initiative was launched by ULI Philadelphia in 2014. WLI is an active part of the ULI Center for Leadership. To date, the WLI has increased the visibility of women in the real estate profession through assistance with speaking engagements and publication opportunities, programming for the Spring and Fall meetings, organization of networking events, endorsement of women as candidates for ULI leadership positions, program collaborations with District Councils and member companies, educational studies and materials on women in leadership, and other activities.

We are thankful for Langan and their generous support of this prestigious program.
